

TORPAGO

We simplify spending for smart businesses.

At Torpago, our vision is to disrupt traditional corporate credit cards and modernize spend management for businesses of all sizes. We empower our clients by eliminating the waste of time and money through control and transparency on company spend.

Your Pain Points

- Manual data entry, namely expense categorization, reports, & approvals
- Long reimbursement times for employees
- Lack of automatic/real-time spend control and transaction overview
- Waiting till the end of the month to gain clarity on company expenses
- Lack of scalability with manual expense report management

Our Platform Solution

Comes At No Cost To You

Zero cost platform due to interchange. That means no contract terms, implementation or license fees. And, no personal guarantee or deposit for corporate cards.

Fits like a Glove

Highly customizable interface that can seamlessly integrate into existing workflows and ERPs like Acumatica, NetSuite, Quickbooks, and Xero. Easily set rules to mold the Torpago platform to your company expense policy.

Achieves Instantaneous Expense Clarity

Real-time receipt capture and automatically categorized expenses. See every transaction as it happens, not at the end of the month. Use our iOS/Android mobile app to review on the go!

Has a Card For Everyone

A physical card for each user. And unlimited virtual cards, great for recurring payments and for an extra layer of security.

Offers Higher Credit Limits

Thanks to our proprietary underwriting process.

Provides Exclusive Rewards

Get 1% cash back on each purchase. Exclusive discounts with Doordash, Carta, Quickbooks, and Plastiq.

Automates Reports & Approvals

Automated expense reports and approvals for both simple and multi-step processes.

Gives You Total Expense Control

No more surprises. Set spend permissions based on niche factors, like time of day and merchant category.

Is Dedicated to Your Success

24/7 customer support via phone & email. Plus, a singular account rep dedicated to your business's success.

Is Painstakingly Secure

Industry-leading security. Torpago is built on the Visa network and is PCI Compliant.
